1. Personal data protection under the General Data Protection Regulation (GDPR¹)

This Notice applies to personal data collected by:

Group (“Grupa Azoty Group”) that sends a request for proposal and conducts a tender or other procedure to select a supplier or contractor (“Procedure”), including via an electronic procurement and tendering platform (“Platform”), acting as the controller of the personal data collected in the course of the Procedure;
- b) several Grupa Azoty Group companies jointly conducting a Procedure, acting as joint controllers of the personal data collected in the course of the Procedure;
- c) all Grupa Azoty Group companies as joint controllers of the contact details provided when registering on the Platform.

The Grupa Azoty Group companies (“Companies” or “we”) and the contact details of the relevant data protection officers are listed in Appendix 1.

In the cases referred to in Section 1(a) and 1(b) above, the data controller or joint controllers will in each case be the Grupa Azoty Group Company or Companies conducting the Procedure.

In the case referred to in Section 1(c) above, the joint controllers will be all Grupa Azoty Group Companies listed in Appendix 1.

This Privacy Notice describes how personal data is used and specifies an individual’s rights pertaining to the collection and use of such data. If you have any questions or comments, please contact us at the relevant email address provided in Appendix 1.

2. Scope of information

This Notice is intended to inform you of all forms in which personal data is used in Poland in respect of persons registered on the Platform, as well as:

- a) natural persons conducting business activities who are seeking to participate in a Procedure;
- b) employees, associates, agents, proxies, subcontractors or representatives of entities other than natural persons, who are seeking to participate in a Procedure, or their subcontractors;
- c) other persons whose data is processed for the purpose of verifying submitted tenders or applications to participate in a Procedure (“you” or “Tenderers”).

¹GDPR means Regulation (EU) 2016/679 of the European Parliament and of the Council of April 27th 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation, “GDPR”), in effect as of May 25th 2018

3. Types of personal data processed

3.1. Data provided by Tenderers/Trading Partners

In connection with conducting a Procedure or registration on the Platform, we may process the following personal data provided by Tenderers:

- a) first name and surname, business name, business address and correspondence address;
- b) numbers in relevant registers (Tax Identification Number (NIP), Industry Identification Number (REGON), Personal Identification Number (PESEL), etc.);
- c) contact details, such as email address, telephone number, and fax number;
- d) your position/function within your organisation;
- e) experience or qualifications held;
- f) other data contained in a Tenderer's representations or credentials provided for the purposes of the Procedure, including, without limitation, specific identification numbers (company or professional card number, bank account number, professional title, education, etc.).

The provision of the data referred to above is voluntary but necessary for registration on the Platform or conducting a Procedure and other activities enabling execution of a contract between the Tenderer and the Company or Companies. If a Procedure does not end in execution of a contract directly between you and the Company, you may be required to provide your personal data as your job duty or in order to enter into a contract with a third party (for instance, if you are the Tenderer's subcontractor).

A failure to provide your personal data will prevent you from registering on the Platform or participating in a Procedure.

3.2. Data collected from other sources

We may collect your personal data from publicly available sources, such as the Central Register and Information on Economic Activity or the National Court Register, in order to verify the data you have provided. In this case, the scope of the data processed will be limited to the data publicly available in the relevant registers.

We may also collect your personal data from your employer or from the entity you represent. In this case, the scope of the data processed will include information required to conduct the Procedure and contact the Tenderer (information regarding termination of your employment relationship with a given entity, change of your contact details, etc.).

We may collect personal data of Tenderers' subcontractors from the Tenderers, where such data have been provided to the Companies in the course of the Procedure.
